

Travel Insurance

18 TO 29 YEAR-OLDS

Three in four engage in risky activities, such as skydiving, skiing, riding a motorcycle or getting drunk ...

And if you're overseas and have any kind of accident while you're drunk or on drugs, you may not be covered by your travel insurance.

incorrectly believe the Government would pay for them to get back home if they were in a medical emergency

incorrectly believe the Government would pay their emergency hospital bills and any other costs

The consequences of travelling without insurance can be financially devastating if something goes wrong overseas.

If you can't afford travel insurance, you can't afford to travel.
